VISION

BSU as an international university engendering graduates to walk through the intergenerational highways

MISSION

BSU CARES to Challenge innovation; Advance technology and facility; Revitalize administration; Engender partnership; and Serve intergenerational roles

GOALS

- 1.To offer through distance learning degree and non-degree programs that are responsive to the needs of learners and the society of which they are part;
- 2.To develop a system of continuing education to sustain professional growth and promote life-long learning;
- 3.To develop and adapt delivery systems appropriate to distance learners
- 4.To provide leadership in development of open and distance education expertise;
- 5.To make instructional packages accessible to all public through collaboration, institutional agreement, and other appropriate mechanisms.

MASTER IN HUMAN RESOURCE MANAGEMENT

BSU CARES

ABOUT THE PROGRAM

PROGRAM DESCRIPTION

The Master of Human Resource Management (MHRM) program objective is to provide students with distinct professional and practical applications of the various attitudes, skills, and knowledge evolving within the framework of Human Resource Management in the 21st Century. This program will ensure that the workforce/man is the most important asset of the organization; overseeing their availability, capability, and effectivity in the ever-changing 21st Century environment.

MODE OF INSTRUCTION

A combination of self-study modules and synchronous session at designated learning centers/ (online) will be provided to participants once a month in a semester. Field activities, assignments, and examinations will supplement this.

COURSE DESCRIPTION

HRM 204 METHODS OF RESEARCH IN HUMAN RESOURCE MANAGEMENT

This course prepares the students in the Graduate level for research in the academe and in the field. Different research methods used in Community Health Development are introduced. Quantitative, Qualitative, or Mixed research designs are discussed in detail, with examples in contrived and actual/field settings. Alignment between problem statements and research methodologies (design, sampling, instrumentation and data gathering procedure) are emphasized that will improve the relevance, coverage and quality of the research.

HRM 205 RESEARCH PRESENTATION AND PUBLICATION

Statistics and its uses in research are introduced in this course together with various statistical software and applications used in data analysis are presented in the earlier parts of this course. Such is geared towards equipping the students with tools necessary for defense, presentation and publication requirements of their research outputs. As culmination, a form of research is designed as an avenue for the research output presentation and dissemination.

HRM 206 HUMAN RESOURCE MANAGEMENT

This course provides an overview of the history of management thought and of human resource managerial activities and an analysis of the process of planning, organizing, leading, controlling, and forces of environments in which organizations operate. Topics include strategic planning, organizational design, human resources management, decision-making, ethics, performance management, occupational health and safety, and social responsibility. The case analysis concerned with each of these forces will be discussed, with emphasis on problem-solving, supervision, and administration.

HRM 211 ORGANIZATIONAL BEHAVIOR

This course is an introduction to the field of Organizational Behavior, Organizational Development, Ethics, and Communication. This will be an interdisciplinary field that examines human behavior in organizational settings and concerns the behavioral interactions of individuals, groups, and the organization itself. It includes an emphasis on the use of motivational theories as conceptual tools for analyzing and solving personnel problems and equips students with the ability to lead people to achieve more effectively toward increased organizational performance.

HRM 221 EMPLOYMENT LAWS AND LABOR RELATIONS

This course will cover governing Laws for Private and Public entities and workplace negotiations. It will tackle legal issues which impact various human resource functions, including equal employment requirements in recruitment, selection, compensation, and performance evaluation. Organizational policies that comply with the public and private sector and national statutes will be reviewed and analyzed. Case studies, including significant court decisions, will be used.

HRM 231 STRATEGIC HUMAN RESOURCE MANAGEMENT

This course will provide conceptual knowledge acquired from HRM foundation courses applied to the realities of the global management environment. The goal of this course is to provide an opportunity for students to synthesize concepts, identify problems, analyze and evaluate alternative solutions, and formulate socially responsible actions.

HRM 241 HUMAN RESOURCE INFORMATION SYSTEM

The course will provide an understanding of a system that is used to collect and store data on an organization's employees. It will include the time, cost, and scope that affect the project management of an HRIS integration. The course will identify potential problems, cultural issues, evaluation processes, and skills needed by employees when participating in the global integration of an HRIS.

HRM 251 GLOBAL PERSPECTIVES IN HUMAN RESOURCE MANAGEMENT

This course will discuss the Cross-cultural and diversified HRM practices with consideration to Indigenous People's Education (IPEd), Gender and Development (GAD), and various employment opportunities. The course will deal with all aspects of HR within the worldwide context, including matters such as management of global workforces, expatriation, and repatriation, HR practices and laws around the world, and present issues arising in specific countries and regions.

HRM 261 FINANCIAL STRATEGIES IN HUMAN RESOURCE MANAGEMENT

Encompassed in this course are topics on compensation and benefits, convertible HR benefits, financial literacy programs, and packages applicable for private and public agencies. Students will effectively understand and manage the financial aspects of the HR department, including the impact of the employees on the organization's bottom line. Emphasis is placed on ways the students can enhance a company's financial performance.

HRM 271 LEADERSHIP AND MANAGEMENT

This course will provide students an overview of Role-Play of Leaders and their endearing qualifications; Governance of the Levels of Management (CEOs, TM, ML, and the R&F). It will provide an effective understanding and manage ways to maximize leadership pipeline, improve job performance, increase employee engagement, enhance workforce skills-based knowledge, cultivate capabilities within a defined competency framework, and develop techniques to build-in succession planning and structural resilience.

HRM 281 HUMAN RESOURCE DEVELOPMENT

Covered are topics on Training Needs Assessment, Talent Management, Learning and Development, Coaching and Mentoring, the conduct of training/seminars, etc. The course will include HRD function and links with organizational strategies, goals, and sub-systems. In addition, the student will be able to critique the relationship between organizational development (OD) and HRD contribution to organizational effectiveness.

HRM 216 RA 6713 OR ETHICS IN THE WORKPLACE

Topics will include governing laws on public and private work ethics. Included is the Philippines Code of Conduct and Ethical Standards for public officials and employees contained within RA 6713. Ethics in the Workplace will discuss key elements of ethics training and professionalism in the workplace. The training program will help students develop the ability to recognize and promote designed to bolster and refresh the knowledge of workplace ethics.

HRM 217 RISK REDUCTION AND DISASTER MANAGEMENT

This course aims to provide a broad understanding of disaster risk reduction policy, including prevention, preparedness, rescue, recovery, and reconstruction. It will emphasize the application of appropriate and practical policy tools such as economic, social, legal, environmental, and technological measures reflecting the regional condition of respective areas.

HRM 218 ORGANIZATIONAL TECHNIQUES AND COMMUNICATION

This course will provide students with the knowledge, techniques, and tools to help them plan and organize time and tasks effectively; emphasizing Accuracy, Brevity, and Conciseness of Communication Processes in the Organization to consequently improve productivity and efficiencies in the workplace. It will permit the students to combine their prior professional knowledge, career planning, and mentoring experiences to formulate a final action plan for a lifelong commitment to learning, career, and socially responsible behavior.

HRM 219 GOOD GOVERNANCE AND CORPORATE SOCIAL RESPONSIBILITIES

The course aims to provide a thorough understanding of the various principles and aspects of good governance and responsible citizenship. The course discusses the sound exercise of authority (political, economic, and administrative) to manage resources for development. The following principles and aspects of good governance are fairness to the global public, transparency, accountability, openness and participation, resources prudence, ecological soundness, and rule of law. It will cover the return on investment based on political, economics, religion, science, intelligence, and arts issues and concerns.

HRM 300-A THESIS A

Independent research study in consultation with the advisory committee is a must. This course requires the student to write his/her thesis proposal and be able to defend it.

HRM 301-B THESIS B

Independent research study in consultation with the advisory committee is a must. This course requires the student to write, defend and bind his/her final manuscript.

HRM 300-A PROJECT A

This course intends to enhance and fine-tune his/her project management capabilities by planning a project related to their degree program for implementation and evaluation in the succeeding semester. This course enables them to put into practice the management theories and concepts that they learned from their respective degree programs.

HRM 301-B PROJECT B

With the guidance of the students' advisers, this course facilitates the implementation, documentation and reporting of the results of the approved Development Project Proposal/Outline. The implementation starts with organizing the resources to be used including linkages with the project stakeholders identified in the Proposal as partners, co-implementers and beneficiaries.
